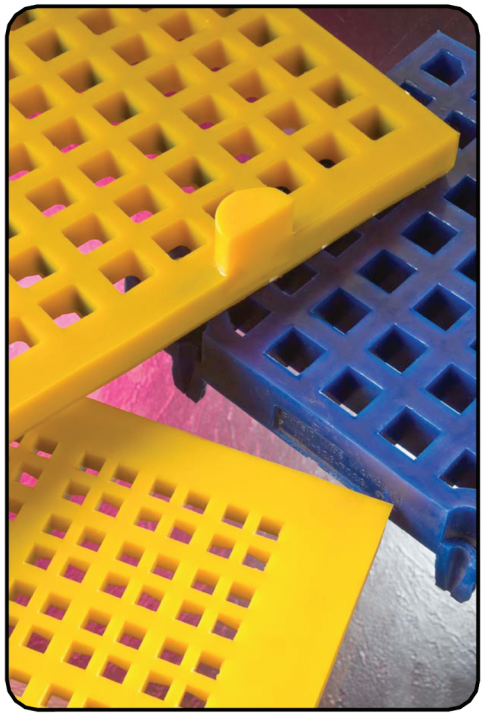
Clean Deck
Urethane Products

Buffalo Wire Works offers a full range of urethane products to screen your most difficult materials. These high-quality products offer long life in both wet and dry applications.

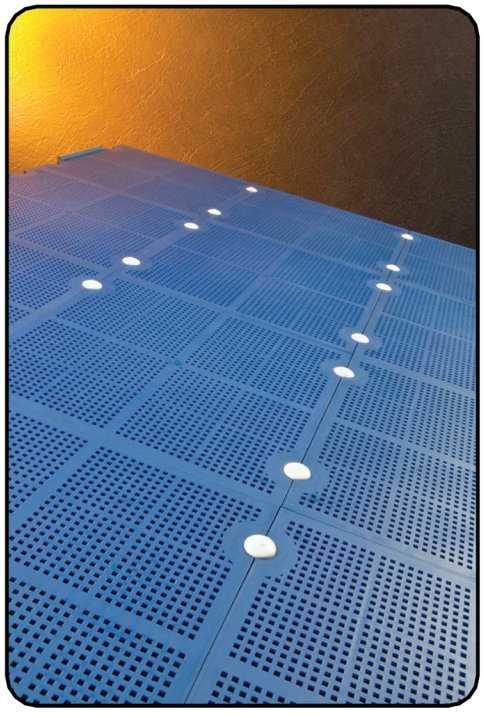


Products Offered:

- Modular screens
- Tension mat screens
- Classifier shoes
- Urethane sheets
- Weldable liners
- Complete chutes
- Urethane support channels
- Urethane coated tension rails
- Crown deck conversion kits
- Many other accessories

Products Attributes:

- Superior abrasion and wear resistance
- Excellent toughness and tear resistance
- Exceptional resilience and tapered openings helps reduce plugging and blinding
- Significant noise reduction over traditional metallic screening media
- Light weight and easy change out
- Wide array of openings and sizes to meet your specific application
- Available in maximum open area designs



Buffalo Wire's urethane screen media solutions solve your toughest screening problems. Our products provide efficient screening of materials in many industry applications such as dewatering, mining, sand, stone, gravel and many others.
