# Buffalo Wire Works

Crushing | Sizing | Conveying

## Buffalo Harp

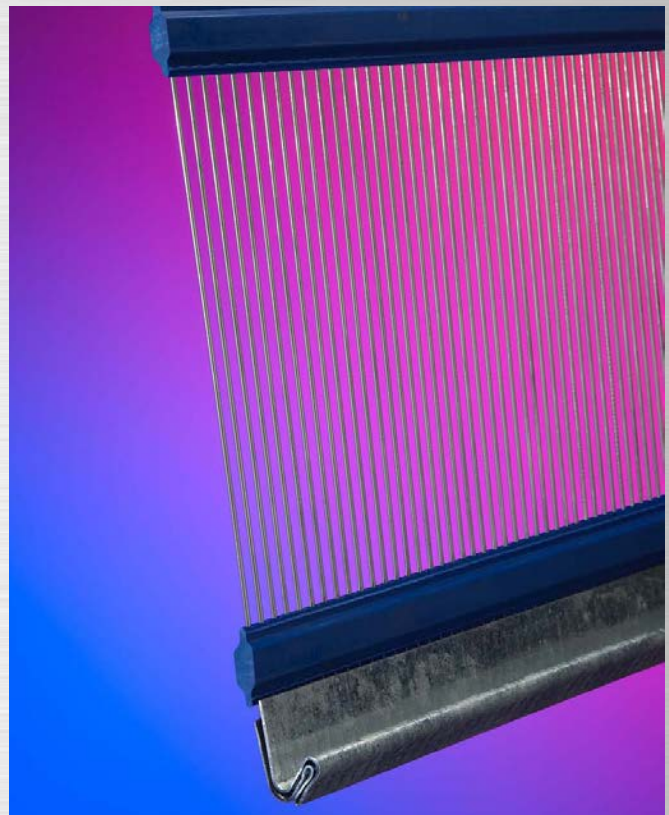

Buffalo Wire has re-engineered and manufactures Buffalo Harp speed screen with individually tensioned wires in order to maximize screening efficiencies.

Buffalo Harp is most efficient in the dry screening of sand, gravel, loam, topsoil, mulch, compost, golf sand and much more.

## Attributes

- Re-engineered hook for fast easy installation
- Molded polyurethane strips to prevent steel-on-steel wear
- Available in premium high tensile wire and stainless steel
- Engineered to decrease your cost per ton
- Exceptional performance in removing fines
- Self-cleaning action with wet and sticky materials
- Efficiently handles material shock loads
- Less maintenance cost
- Fits various applications
- Maximum open area
